

Wonderful nature

Argentina and Chile, with beautiful and diverse landscapes.

"It was excellent! We could finally realize our dream."

Why did you decide to make this trip?

Because I visit different parts of the world has always been my passion. See varied landscapes, meet many cultures and learn something from each place I visit. Argentina offered me all this and more.

Was your travel alone?

No, I went with my best friend Coty. We first visited Argentina and then Chile.

Did you enjoy your trip?

Was excellent! We could finally realize our dream. We had a great, now we have a lot of memories and friends will visit.

What captivated you from Argentina?

I love go natural. Argentina has a diverse geography, which gave us many options for places to visit. Moreover, from the cultural standpoint, cities are full of history and interesting places. Never run out of places to go!

Where do you hospedaste?

We rented an apartment for Aser5. We feel very comfortable doing it, as it gave us the space and freedom than a hotel does not provide.

Any travel history?

When we went to check in for our flight back, we talked to staff the place and gave him our tickets. She saw them, to laugh and told us that the flight was for the next day. Shame, we were confused!

Would you return to hire Aser5?

Obviously! From now on, traveling and staying with Aser5 will go hand in hand.
